Subject: Recommendation note

X-MSK: Ham

Hello Jeff,

I wanted to thank you for the validation and strategy work you completed at IT Shared services and send you a recommendation note.

To Whom it may concern:

Jeff Gassman was hired as a senior validation consultant for I/T Quality and Compliance work primarily for Windows 7 upgrade strategy. Jeff was able to quickly come up to speed with J&J standards and methodology and deliver not only the required documents for the Windows 7 strategy but also provide additional SOP's and checklist for other quality and compliance requirements.

I would highly recommend Jeff as a senior validation consultant, he has broad industry knowledge and can operate successfully in any project in this space.

Thank you
Garima Maheshwari
