

May 30, 2019

To Whom it may concern,

It is with great pleasure to write a letter of recommendation for Jeffrey Gassman. Jeff was employed as a Senior Validation Consultant for Lyophilization Services of New England. During his time with LSNE, he managed projects for multiple Process Validations and Performance Qualifications, simultaneously.

Jeff was an extremely dependable and knowledgeable member of our team. His expertise in the field of validation proved to be invaluable. No matter the task assigned to him, it was handled expeditiously, and with great consideration. He was an asset to LSNE and a great example of what we strive to achieve, therefore, I highly recommend Jeff. His multitude of years in the industry show with his consistent, high quality work.

Sincerely,

A handwritten signature in blue ink, appearing to read "Christine Taliadouros", with the date "30 May 2019" written to its right.

Christine Taliadouros

Validation Manager

Lyophilization Services of New England
